

Response to Question 9:

AIsleCom does qualify for Stream Line processing because AIsleCom is not affiliated with any Foreign Dominant Carrier. AIsleCom is a new U.S company organized to provide international telecommunications services.

AIsleCom is affiliated with an entity registered in St. George's Grenada as Affordable Island Communications. Grenada is a WTO Member country and as a result Affordable Island Communications qualifies for a presumption of non-dominance under § 63.10(a)(4);

Grenada has recently reformed its Telecom Sector thus paving the way for competition. It is well known that Cable & Wireless is the only dominant carrier in the Caribbean.

Affordable Island Communication does not own any facilities in Grenada. Affordable Island Communications is not currently licensed to provide any telecommunications services in Grenada.

Affordable Island Communication is a new company setup to participate in the telecom reform occurring in the Caribbean. AIsleCom recently applied for a license to resell International Traffic in Grenada and is awaiting approval from the licensing authority in Grenada.

Response to Question 10 and 11:

Section § 63.16 Switched services over private lines

A) AIsleCom seeks authority to provide switched services between the US and Grenada. Grenada is a member of the WTO. AIsleCom would not be selling switched basic services over private lines to a country for which the Commission has not previously authorized the provision of switched services over private lines.

B 1) AIsleCom would ensure that settlement rates for at least 50 percent of the settled U.S.-billed traffic between the United States and Grenada are at or below the benchmark settlement rate adopted for that country in IB Docket No. 96-261.

B 2) AIsleCom would not be providing switched services to non-WTO countries.

C) Grenada is currently reforming its Telecom sector. This reform allow US based carriers to resell international private lines, interconnected at both ends, for the provision of switched services.

The authority that I am seeking would help to ensure that Grenada affords resale opportunities equivalent to those available under U.S. law.

Permission to provide switched services to Grenada would ensure that equivalent resale opportunities exist between the United States and the Grenada.

The governments of the Eastern Caribbean formed a separate entity to oversee the licensing process to ensure fair and transparent regulatory procedures, including separation between the regulator and operator of international facilities-based services.

Response to Question 13:

AIsleCom request authority to provide telecommunications service to all WTO member countries.

Response to Question 15:

d) AIsleCom has not received authority previously under Section 214 of the Communications Act.

e) AISleCom requests global facilities-based and resale Section 214 authority pursuant to the terms and conditions of Section 63.18(e)(1) and (e)(2) of the Commission's Rules. AISleCom also seeks Section 214 authority to provide International Switched Services over Private Lines (ISR).

f) At this time, AISleCom seeks no other authorization available under Section 63.18(e).

g) Not applicable

h) Dave George
AISleCom Inc.
3525 Calle La Quinta
San Clemente CA 92673
(858) 232-7873

Principal Business: President of Telecommunications Corporation

Citizenship: Grenada (US Permanent Resident)

i) AISleCom certifies that it is only affiliated with Affordable Island Communication, a new company registered in St. George's Grenada West Indies.

In support of this certification, the name, address, citizenship and principal business of the sole shareholder that controls ten percent or more of AISleCom, Inc. is as follows:

Dave George, President
AISleCom Inc.
3525 Calle La Quinta
San Clemente CA 92673
(858) 232-7873

Principal Business: President of Telecommunications Corporation

Citizenship: Grenada (US Permanent Resident)

AISleCom certifies that it has not agreed and will not agree in the future to accept any direct or indirect special concessions from a foreign carrier or administration with regards to traffic or revenue flows between the United States and any foreign countries the company is authorized to serve.

AISleCom certifies that no party to this application has been denied federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988.

Conclusion In conclusion, AISleCom certifies that all of the information in this application is accurate and correct.

For these reasons, AISleCom respectfully request that the Commission grant this application.

Respectfully submitted,
AISleCom, INC.
